 1. FR-001 Example requirement
3. Evidence & sources

Sample Report

Generated fixture · exercises every design-language pattern · 2026

Overview

This fixture verifies the report design language: landmarks, heading order, skip link, status badges, tables, callouts, and print rules. Short sentences. As simple as possible, and no simpler.

Statuses: ☐ Draft ☒ Agreed ☐ ▲ At risk ☐ ■ Built ☐ ✓ Verified

Friction flag. The client expects X; the build plan says Y. Resolve before the next milestone.

Requirements

FR-001 Example requirement ■ Built

The system stores each requirement with a stable identifier that survives reordering and renaming.

Acceptance criteria for FR-001

#	Criterion	Verified by
1	ID assigned on first publish	Unit test
2	ID never reused after deletion	Unit test

Developer prompt. `Implement FR-001: assign a stable ID on first publish using a per-report counter...`

Evidence & sources

"Every claim traces to a source; inference is marked as inference."
